#### DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:
2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the aspect of the invention disclosed in claim 10, "*n (n≥2) gate-output pulses are supplied to the scanning driver at a different timing within one vertical period in a picture signal*" and "*the scanning driver shifts each of the n (n≥2) gate-output pulses in synchrony with the clock signals*" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 2629

3. As to the claim 10, the use of unspecified symbols, "n" and "m" renders the claim to fail to comply with the enablement requirement since "n" and "m" must be positive integers.

Examiner respectfully requests the Applicants to specify the symbols, "n" and "m" as positive integers in the claim in order to make the claim in condition of allowance.

4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
